OF OIL COMPANY

Former Waters-Pierce Manager to Control Affairs of Magnolia Concern.

Tuesday's Houston Chronicle has the following to say of a former resident of Bryan:

The Magnolia Petroleum Company, with John Q. Tabor as manager, will begin the constructive work of that corporation either the latter part of the present week or the first part of next. The offices of the new marketing company will be on the sixth floor of the Chronicle building, while the location of the warehouse and local agency will be on McKinney avenue, on property leased from the Terminal company.

The Magnolia Petroleum Company, which was recently organized and mentioned of which was made in the Chronicle, will take over the large refineries at Beaumont and Corsicana owned by John Sealy of Galveston, who is the president of the new corporation. For the past several months it has been a matter of conjecture what would be done with the two refineries and whether they would not

pass over into the hands of one of the several large companies now doing business in Texas. The present announcement disposes of all speculation.

Mr. Tabor, who has been with the Waters-Pierce Oil Company and the Pierce-Fordyce Company for twenty-five years, has been instrumental in building up for both of these companies a great business in Texas. That he will prove more than equal to the demands that are to be made upon him in the constructive work of the Magnolia Petroleum Company is beyond question.

Beginning with next week the task of forming his official staff, negotiating for leases and sites, consultation with architects and contractors, and the awarding of contracts will consume much of his time. It is stated with authority that by the first of the year the new company will mean to Houston the employment of from fifty to one hundred men. Another palm has been added to this city's commercial supremacy in securing the headquarters of the new company for Houston, as well as the materialization of another company in the field to cater directly to the trade.

In addition to carrying out the plans for the company's offices and warehouses in Houston, Mr. Tabor has already begun to secure locations and sites for plants throughout the state. It has not been definitely stated but the report is current that the territory over which Mr. Tabor will have authority will be along the border lines of Louisiana and New Mexico and that part of Southern Texas including the cities of Galveston, Beaumont, Houston, Austin, San Antonio and El Paso. This division will be known as the southern division of the Magnolia Petroleum Company.

Captain Tabor's many old friends in Bryan note with pleasure his rise in the commercial world and wish for him continued success.

Big Newspaper Excursion. Detroit, Mich., Aug. 16.—Under the auspices of a Detroit newspaper, a large party of excursionists will leave this evening on a trip to Buffalo, Atlantic City, New York and the British islands of Bermuda, which lie out in the Atlantic 700 miles from New York. The trippers will make the first stage of their journey to Buffalo by boat, and a special train will be taken at Buffalo for Atlantic City. On Saturday the party will embark on the liner Oceana for Bermuda.

Mr. J. L. Armstrong Dead.

Walter Armstrong of Tabor received a telephone message this morning announcing the death of his father, Mr. J. L. Armstrong, at Lott, Falls county, last night. His death was due to a fall received yesterday afternoon from a gallery, in which his arm was broken, and death followed from the shock during the night. He was 74 years of age and had been in quite feeble health for some time. The son left for Lott today, but did not know when he left what arrangement had been made relative to the funeral. He thought, however, that the remains would be brought to Wheelock and laid beside his wife.

Fleet Has but One Ship.

Washington, Aug. 16.—In the opinion of the experts of the navy department an admiral is not needed to command a fleet of one vessel, and in consequence Rear Admiral Sidney A. Staunton has been detached from command of the fifth division of the Atlantic fleet and assigned to duty on the general board, the order going into effect today. The vessels of the fifth division have become scattered all over the Atlantic on special duty until finally Admiral Staunton had only one ship left under his direct orders.

To Select Cup Defenders.

New York, Aug. 16.—Nine speedy motor craft took part today in the first of the elimination trials on Huntington bay to select a team of three defenders to meet the trio of English challengers for the British International Cup. The trials will continue three days, and the races for the cup will be held at the same place August 24-26. The Dixie IV is considered the most likely winner of the elimination events.
